

# ASQ:SE™ & ASQ-3™ Screening and Referral Process—Early Childhood Service Provider Edition

## ASQ-3 & ASQ:SE Administration Recommendations:

- Complete the ASQ:SE questionnaire at 6, 12, 18, 24, 30, 36, 48, and 60 month age intervals.
- Screen children with ASQ-3 at 2 and 4 months, then at 4 month intervals up to 24 months old, and at 6 month intervals until the child reaches 5 years old.
- Share questionnaires with parents or guardians 1-2 weeks prior to the child reaching the indicated age interval.
- For infants 3 or more weeks premature, use an adjusted age used up to 24 months for ASQ-3 (subtract # of weeks premature).

## ASQ:SE & ASQ-3 Results & Next Steps:

Screening and referral process should be done in partnership with the family, & be based on individual child's needs.  
If family has concerns, please refer to appropriate services, regardless of screening test result.

Level 1: Indicates Typical Development	Level 2: Indicates the Need for Monitoring	Level 3: Indicates the Need for Further Evaluation
<p><b>ASQ:SE score is <u>below</u> the cutoff</b></p> <ul style="list-style-type: none"> <li>• Provide family with Learning Activities from the ASQ:SE User's Guide</li> <li>• Monitor and rescreen based on the ASQ:SE intervals listed above</li> </ul>	<p><b>ASQ:SE Score is <u>near</u> the cutoff</b></p> <ol style="list-style-type: none"> <li>1. ### **\*Facilitated Referral –**

1. Have staff assist parent with making referral.
2. Send information related to screening results to referral.
3. Follow up with referral source to ensure referral received, appointment occurred and to obtain results.
